Dear Mr. Gal-On,

I want to take this moment to thank you on behalf of Shleppers Moving & Storage Company and our many satisfied customers who were happy to use your excellent services.

As you already know, the assembly and disassembly of antiques is not an easy job, as well as the skill needed for multi-pieced or oversize furniture. You have managed to make the process a much easier one when our clients contract you. We are passing along your name to the furniture companies and auction houses that are always looking for careful and qualified people to assist them when complicated pieces are involved.

Again - thank you for your continuing good work - we appreciate your skills!

Sincerely,

Tal Druyan
